Bandinfo

Arrestor Hook Down founded in 2006 from the ashes of the Hardcore Band REPLUSE!
The idea of Band was to combine Hardcore and Metal music without playing the pure Metalcore sound like many others play nowadays.

In the early days Arrestor Hook Down confirmed three Members (Tom/Olli/Dustin). In this constellation the first EP was recorded. But nobody was pleased with the result of the recording sessions of the EP Pula DiNura. The celerity of the songs is always to slow and the pressure of live sessions and gigs was not given.

All in all the sound of the EP was/is not significant for Arrestor Hook Down.

The Band was impelled to show the pressure in live shows – and did it.

A lot of fans was impressed of their shows. This is also reflected in the quantity of the audience. Next show – more people...

In 2007 the Band decided to search for a second guitar player and found Jasper – a former fan of the Band.

Henceforward Arrestor Hook Down is not a great live Band anymore – no – Arrestor Hook Down is kicking asses and blasting brains at every show.

Since August '08 the Band is recording their first Longplayer, which will be released by 666records. Highest priority is to record the pressure of a live show on this album.

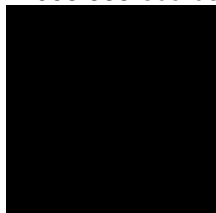

This Album is the beginning of Arrestor Hook Down and also the beginning of a great Hardcore and Metal Band.
